### Why does Great Britian buy its oatmeal of us?

Certainly it seems like carrying coals to Newcastle to speak of exporting natmeal to Scotland and yet, every year the Quaker Oats Company sends hundreds of thousands of cases of Quaker Oats to Great Britian and

The reason is simple; while the English and Scotch have for centuries eaten oatmeal in quantities and with a regularity that has made them the most rugged physically, and active mentally of all people, the American has been eating oatmeal and trying all the time to improve the methods of manufacture so that he might get that desirable foreign trade.

How well he has succeeded would be seen at a glance at the export reports on Quaker Oats. This brand is without a rival; is packed in regular 10c packages, and in hermetically sealed tins for hot climates.
